

B I O F R E E

The BIOFREE system completely removes rust, bacteria, viruses, colloids, sediment, grit, suspended matter and other impurities while keeping healthy dissolved minerals naturally present in the water. The wall mount design saves space and is easy to install. A microcomputer automatically initiates and controls the self cleaning cycle, prolonging the life of membrane and reduces operation cost. A bright LCD panel continuously displays system status.

- 0.01 MICRON PORE SIZE PROVIDES THE FINEST FILTRATION AVAILABLE - 99.99% REDUCTION OF PARTICLES LARGER THAN 0.02 MICRONS
- HIGHEST FLOW RATE AVAILABLE – CAN OPERATE CONTINUOUSLY AT 17.5 gpm (3,975 LPH)
- 60 SECOND CLEANING CYCLE - USES PURIFIED WATER
- HIGHEST EFFICIENCY AVAILABLE – 99.6% EFFICIENCY - ONLY 6.5 GALLONS (24.5L) OF WATER USED DURING CLEANING CYCLE FOR EVERY 1,575 GALLONS (5,962L) OF WATER PURIFIED
- VIRTUALLY SILENT OPERATION
- USES EXISTING SUPPLY PRESSURE - NO EXTERNAL PUMPS REQUIRED – OPTIONAL PUMPS AVAILABLE IF REQUIRED
- NSF / CSA / UL APPROVED
- MOST ENERGY EFFICIENT ULTRAFILTER AVAILABLE - USES LESS ELECTRICITY THAN A LIGHT BULB
- PURIFIES ALMOST ANY WATER SOURCE INCLUDING WELL WATER, LAKE WATER, RIVER WATER AND RAIN WATER – OPTIONAL PRE AND POSTFILTERS AVAILABLE IF REQUIRED TO REMOVE LARGE PARTICLES, CHEMICALS AND IMPROVE TASTE
- SIMPLE PLUMBING CONNECTIONS – CAN BE INSTALLED IN LESS THAN ONE HOUR - MODULAR SKID MOUNTED SYSTEMS AVAILABLE – PREPACKAGED SKID WITH TANKS, PUMP AND FILTERS IS 1.0 METER SQUARE AND 1.5 METERS HIGH
